

Application Description:

MarketView Mobile® Provides real time streaming prices from various Indian and leading International exchanges on your Android phone. In addition to this the application provides OTC data, News and other contents real time.

Some of the features include Real-time Market depth, Charts, Alerts, Market statistics, multiple profile creation, Portfolio manager, Mutual funds, Insurance, IPO etc.

The application is most user friendly with an intuitive GUI. The application requires Advanced GPRS connection to enable real-time streaming quotes.

The Modalities

MarketView Mobile® application for the Android phone can be downloaded from www.marketviewmobile.com. On its download you need to contact our support team at support@tickerplantindia.com or call at +91-22-66866060. Our relationship manager will get in touch with you and will explain you about the exchanges covered and also about the costing for exchange feeds and OTC market data. Information about the various payment options would be discussed by RM. Once the payment is credited the User Id and Password will be generated and provided to you. By using this UserId and Password, you can login to the MarketView Mobile® application and start using it.

Documentation of MarketView Mobile®

Click on the application Icon  and user will be able to see the default Login Screen as shown.
